Are you looking for partners ?	Yes, new partners are welcome
Title / Name BIP <i>(Enter the official name of the BIP)</i>	Towards a smart and sustainable world
Abstract <i>(Brief summary of the activity – what it is about in 3–5 lines)</i>	Are you eager to join the movement towards a smarter and greener future and share your passion for sustainability and innovation with people from abroad? Don't miss our BIP "Towards a Smart and Sustainable World!" Hear Inspiring Talks from global experts in industry and academia, engage in Interactive Workshops to expand your knowledge of the latest sustainability trends/challenges and Actively participate in thought-provoking discussions with experts and fellow students. This is your chance to learn, grow, and take a step forward towards a more sustainable world. Mark your calendars for an unforgettable week of learning and collaboration!
Goal <i>(What is the main objective or purpose?)</i>	- Learn from industry leaders and academics about the latest trends, challenges and breakthroughs in the journey towards a smarter and more sustainable world. - Think critically while exploring new perspectives on sustainability. - Participate actively in hands-on workshops to develop practical skills, knowledge and connection with other international students.

	- Sharing thoughts about the challenges and opportunities in sustainability and technology. Collaborating with students from diverse backgrounds
Topics covered <i>(List the key themes or subject areas that will be addressed)</i>	SDG's , the environment (water), sustainable materials, green chemistry, E-mobility and smart cities, energy transition in industry
Expected outcome(s) <i>(What should students gain or achieve by the end?)</i>	Achieve better insight in the complexity of sustainable challenges from different viewpoints (industry and academia) covering a wide variety of topics.
Start and end date of the BIP	15/2/27-19/3/27
Content of virtual component <i>(Describe any online or hybrid elements – e.g., webinars, online modules, collaborative tools)</i>	Online module which is time and place independent where the student will be introduced to the different topics via individual assignments. Virtual meeting with your group members.
Start and end date of the virtual component	22/2/2027-30/4/2027
Maximum number of students <i>(Total number of participants allowed)</i>	40 (incoming)
Maximum number per university <i>(Limit per institution, if applicable)</i>	Max 5 per partner
